MARGARINE PRODUCTION

November 1940

Reports from manufacturers of margarine indicate that 29,994,000 pounds of that product were produced during November 1940, the Agricultural Marketing Service states.

This quantity is 2,006,000 pounds greater than that produced during November 1939; but 2,670,000 pounds less than the average production for November for the 5 years 1935-39.

Of the total quantity manufactured 3,596,000 pounds or 12 percent, were produced from animal and vegetable oils and 26,398,000 pounds (88 percent) from vegetable and nut oils.
